Visit [TVTrip.com](#) before booking your hotel room. They feature videos of the hotel exterior, interior, lobbies, bars, restaurants, room styles and other amenities of hotels throughout the world in fast moving, clear videos. They also display room rates and **reviews**. Check Hotel Top Deals [here](#). This website uses video in a winning formula.

Real estate brokers and agents who sell **co-op and condo buildings** might consider creating videos like this to market to prospective buyers. Buying an apartment means buying into a building culture and style, as well as the neighborhood.
